Get GLOWING

If work has been taking over your social life then chances are your skin may be suffering too. Long working hours can certainly cause your skin tone to become dull and uneven. Restore its radiance with this serum that packs extra performance with a cocktail of premium ingredients. Skin-perfecting peptides in it also exfoliate skin to reveal a brighter complexion, while wáltheria indica lends skin a healthy glow with light-reflecting pigments for a fresh finish. It's the perfect skin reviver!
